IN THE CLAIMS

What is claimed is:

1   1.   A tent with extendable windows comprising:

2   a main structure including a plurality of walls which are oriented at a first

3   angle with respect to a vertical reference;

4   at least one window is extendable to a second angle with respect to a vertical

5   reference, where said second angle is a more negative angle than said first angle.

1   2.   A tent, as in claim 1, wherein:

2   said window includes a frame which borders a portion of said window to

3   provide structure support.

1   3.   A tent, as in claim 2, wherein:

2   said window includes a sleeve into which said frame is positioned.

1   4.   A tent, as in claim 2, wherein:

2   said window includes a awning which covers an upper portion of said

3   windows which extends out from said walls.

1   5.   A tent, as in claim 4, wherein:

2   said awning is bordered by at least a portion of said frame.

1   6.   A tent, as in claim 4, wherein:

2   said awning is extendable and retractable such that said window is moveable

3   from alignment with said wall and thus aligned with said first angle to a second

4   angle in which said window extends outward from said wall.

1   7.   A tent, as in claim 1, further comprising a lower attachment seam at the line

2   where a lower edge of said window attaches to said wall of said tent, which acts as

3   a hinge mechanism, allowing said window to extend or retract.

1   8.   A tent, as in claim 1, further comprising:

2   at least one guy wire which serves to maintain said window in an extended

3   position by attaching to some portion of it and drawing it away from said main

4   body of said tent.

1   9.   A tent, as in claim 1, wherein:

2   said second angle is negative such that an uppermost point of said window

3   extends further horizontally than the point at which a lower edge of said window

4   attaches to said tent.

1   10.   A tent, as in claim 1, wherein:

2   said second angle is aligned with a vertical reference line, and said first

3   angle of the wall is positive.
